THE SECRET'S IN THE SCIENCE®

ORGANICALLY CHELATED TRACE ELEMENT, VITAMIN AND AMINO ACID DRENCH

Liquithrive® Lamb is an organically chelated trace element, vitamin and amino acid supplement specifically formulated for the growing lamb.

Liquithrive® Lamb is formulated based on the clinically known needs of the lamb with a high bioavailability of micro-nutrients to correct nutritional imbalances.

A high level of bioavailability means that trace elements and minerals are absorbed by the small intestine and stored in the soft tissue creating a reservoir of nutrients to be used when needed.

Liquithrive® Lamb can be given to lambs as young as four weeks of age. It helps to correct natural imbalances in pastures to maintain health, vigour and performance

THE SCIENCE BEHIND LIQUITHRIVE® LAMB

Lilburn Farming Partnership, Northumberland

KEY FINDINGS

- Lambs dosed with Liquithrive® Lamb, on average, increased live weight gain by 7.44kg more than lambs not drenched.

Wellshead Farm, Huntly, Aberdeenshire

KEY FINDINGS
