

LIQUITHRIVE LAMB® WELLHEADS FARM, HUNTLY STUDY

TRIALS WERE PERFORMED BY MR J GORDON OF WELLHEADS FARM, HUNTLY IN ABERDEENSHIRE, OVER A PERIOD OF TWO MONTHS.

OBJECTIVE

The objective of the independent trial was to assess if there were benefits from supplementing with Liquithrive Lamb and if there were, to quantify them.

METHODOLOGY

- 90 ewe lambs (Scottish Mule Cross Suffolk or Texel) were selected.
- The lambs were all carefully checked, weighed, wormed.
- The 90 lambs were then split randomly into two groups:
 - those receiving no Liquithrive Lamb.
 - those receiving 15ml dose.

ASSESSMENT

All the 90 lambs were weighed at the beginning and at the end of the trial and all details recorded.

TRIAL CONCLUSIONS

- DRENCHING WITH LIQUITHRIVE LAMB HAD A SIGNIFICANT EFFECT ON DAILY LIVE WEIGHT GAIN (DLWG).
- LAMBS GIVEN 15ML OF LIQUITHRIVE LAMB SHOWED SIGNIFICANTLY GREATER DLWG OF LAMBS NOT DRENCHED.
- LAMBS GIVEN 15ML LIQUITHRIVE LAMB, ON AVERAGE, INCREASED LIVE WEIGHT GAIN BY 3.68KG MORE THAN LAMBS NOT DRENCHED.
